

**To Whom It May Concern:**

**Fibernetics Business Services**

The installation of the Fibernetics Business Phone system has equipped my company with a cost saving solution! A large percentage of our workforce is provided with a smart phone. Combined this with a my fav long distance our monthly cell phone bills have reduce from \$800.00 to as low as \$220.00 per month. This and the lower phone use costs has reduce our pay back time to 12 months on this investment.

We also saw a cost savings on the added use of the conference bridge. Conventional costs bill per user, bridge and duration of meeting; The Fibernetics Conference Bridge is included with the system for unlimited use in all aspects. This also has allowed us to use the system more often as it is free.

This tool makes communication easy and efficient. Our receptionist can manage a better call experience for our customers with greater visibility and 3 digit dialing to all extensions, including our Montreal office.

I highly recommend the integration of the Fibernetics Phone solution to any business owner! It's a smart, customer focused, money saving tool that every company would benefit from.

Sincerely;
